About your HTC Mini+

Your HTC Mini+ is a convenient way for you to remotely control your phone while you're charging it. You can handle incoming calls, make calls, read text messages and more.

1	earpiece	8	end call/back
2	IR	9	keypad
3	laser pointer	10	key lock
4	LED	11	USB connector
5	volume	12	mic
6	navigation/enter	13	lanyard loop
7	call		

Using the navigation controls

The navigation controls on the HTC Mini+ are used to browse and select items in the menu. They are also used to remotely control your phone's camera, media player, and more.

The navigation controls consist of a 4-way navigation ring (up, down, left, and right) and an enter button.

Charging your HTC Mini+

Before using your HTC Mini+ for the first time, you should give it a full charge. Charging time depends on the power source. Use an official HTC AC adaptor for a faster charging time.

To charge your HTC Mini+, connect one end of the USB cable to the USB connector on the HTC Mini+, and the other end to the power source.

Red LED	charging
Green LED	fully charged

Important:

The HTC Mini+ will not charge if its battery temperature is greater than 50°C or less than 0°C.

Turning your HTC Mini+ on or off

To turn your HTC Mini+ on, short press .

To turn your HTC Mini+ off, press and hold .

Pairing your HTC Mini+ via NFC

1. Turn your HTC Mini+ on, then press and hold .
2. On your phone, turn NFC on.
3. Place your HTC Mini+ back-to-back with your phone.
4. Tap **Yes** when you're prompted to pair your HTC Mini+.

Pairing your HTC Mini+ via Bluetooth

1. Turn your HTC Mini+ on. Then press and hold  to make your HTC Mini+ discoverable.
2. On your phone, turn *Bluetooth*® on and then tap **Bluetooth** to see the list of available Bluetooth devices.
3. Tap **HTC Mini+** to pair.

When HTC Mini+ has connected to your phone, you'll see  in the status bar on your HTC Mini+ and the  notification icon on your phone.

You only need to pair HTC Mini+ to your phone once. The next time you turn on your HTC Mini+, it automatically reconnects to your phone.

Pairing your HTC Mini+ with your PC

Your HTC Mini+ can also be paired to a Windows® 8 (or 7) PC that has *Bluetooth*® turned on.

1. On your PC, turn Bluetooth on.
2. Turn your HTC Mini+ on. Then press and hold  to make your HTC Mini+ discoverable.
3. On your PC, add a new Bluetooth device.
 - In Windows 8, go to **PC settings > Devices**, and then click **Add a device**.
 - In Windows 7, open the **Control Panel**. Under **Hardware and Sound**, click **Add a device**.
4. Select **HTC Mini+** (then click **Next** in Windows 7).
5. Install **HTC Mini+ Remote**, and then start it.
6. Right-click the system tray icon , and then click **Connect**.

Note:

You can download **HTC Mini+ Remote** from www.htc.com/support.

Disconnecting your HTC Mini+

If you want to temporarily disconnect your HTC Mini+, tap **HTC Mini+** in your phone's Notification panel.

Locking the keypad

You can lock the keypad to prevent accidental button presses.

- To lock the keypad, press and hold . The screen will go into sleep mode.
- To unlock the keypad, press  twice.

Note:

To wake the screen, press . You will see a lock icon in the status bar if the keypad is locked.

What you can do with HTC Mini+

	View your call history and frequent callers. You can also use the lists to make calls.
	View text messages and send a quick reply using a preset response.
	View ongoing and upcoming calendar events.
	See how many new emails you received and be notified if your phone's battery is critically low.
	Remotely control the camera shutter on your phone, the Music app, and more.
	Access the settings for your HTC Mini+.

Some icons show the number of new notifications (such as number of missed calls on the Phone icon).

To select an icon, use the navigation control. The navigation control consists of an enter button and an outer ring. The enter button is used for selecting items. The outer ring is used to navigate up, down, left, and right.

Making and receiving calls

You can use your HTC Mini+ to answer incoming calls, redial, and more.

answer an incoming call	press 
reject an incoming call	press 
mute an incoming call	press volume up or volume down
end a call	press 
redial	press and hold 
change in-call volume	press volume up or volume down
mute microphone on/off	While in a call, press  to open Call options , and then select Mute on or Mute off .

To make a phone call, you can:

- Directly dial the number using the keypad.
- Use Smart dial to quickly place a call. Smart dial searches and calls a stored/synced contact or a number from your call history.
- Press and hold a number on the keypad to use the corresponding speed dial on your phone.
- Select , and then select an item in **Call history** or **Frequent**.

Note:

Smart dial and speed dial features are automatically inherited from your phone.

Conference calls

To make a conference call, do the following:

1. While in a call, enter the phone number of the second contact, and then press .
2. When the second call has connected, select **Call options** > **Merge calls**.

Swapping calls

If you're connected to two callers, but aren't conference calling, one call will be on hold while the other is active. To swap between the callers, press .

Reading text messages

Whenever you receive a text message on your phone, you'll see a notification over . Your HTC Mini+ displays the most recent text messages.

To read a message, select  and then select the message you want to read. While viewing a message, you can scroll through your messages by pressing left or right on the 4-way navigation ring.

To quickly reply to a message using a preset response stored in your phone, press  and then select a reply.

To call the sender, press  while viewing the message.

Viewing calendar events

You can view summaries of the most recent ongoing and upcoming events in .

To view an event, select  and then select the event you want to view. You can scroll through the events by pressing left or right on the 4-way navigation ring. Events are listed in chronological order.

Checking other notifications

You'll see a notification over  when:

- You receive an email in your phone's Mail app.
- Your phone's battery is critically low.

To clear the notifications, select  and then select **Clear notification**.

Handling alarms

If an alarm sounds on your phone, you will see the notification on the screen. You'll be able to snooze the alarm or dismiss it.
